

Supporting you in

Managing the impact of CSG

On Your Business

the unconventional gas (UG)
industry, in accessing
landholders' property, does not
solely enter the private land of
host farmers...

but also the host farmers'
workplace

article
about the
*WHS Implications for farmers
hosting Unconventional Gas*

Industry and Government focus on the P&G Act

Industry and Government focus on the *Petroleum & Gas (Production & Safety) Act* (which focuses on the industry)

to the exclusion of other legislation that considers the Host Farmers needs (such as the WHS Act)

P&G

WHS

Places a duty

On industry
to consider

Impacts on
host farmers

When these two Acts are considered independently, the Host Farmer is **invisible**

A Dual view is required to ensure that the Industry's obligation to consider the impacts on the Host Farmers' workplace are enforced.

Molliwell can help you to ensure the Industry's obligation to you is fulfilled

Professional audit and reporting service

to identify the WHS issues the industry must address as impacts to your operation.

Liaise with your advisory team to ensure the issues are addressed in negotiations

Support you in day to day management of the industry activities on your property to ensure you are in a good position in the case of future disputes

Support you in obtaining baselines and data for your protection in future actions
